A Long Cance Trip.

If Oscar C. Gallagher, professor in the Boston English high school, and his brother, Rollin M. Gallagher, professor in the Middlesex school in Concord, N. H., succeed in their undertaking they will have performed something never done before it is thought. They are to make a canoe trip from Hardwick to Worcester. The young men who have been spending the summer at Curtis pond in Woodbury, started out on their trip July 20, launching their canoe in the Lamoille river. They shot the rapids in that stream and had an exciting experience. From the Lamoille they go into Lake Champlain, thence to the mouth of the Winooski river. They will then paddle to a point in Worcester, as near as possible to their summer camp. The trip will be of about 100 miles length The course makes almost a complete

This will be cut from about 800 acres, a much smaller acreage than has been cut over for some years. The decrease is due in part to the large number of spruce and pine trees and shrubs that have been set out along the hillsides and tops of many mobile races. A new grand stand to accommodate 4000 people has been esque effect desired by the owner, and also contributing to the future requirements for wood and lumber.

Lightning's Pranks.

Lightning played a strange prank at Brattleboro, last Wednesday night, when a bolt entered the house occupied by Maurice Doyle and family. The bolt entered the gable end and ripped off nearly all the clapboards. Then it entered a room where Patrick Doyle and Francis Landerfien were sleeping and tore the side and foot of the bed completely off, dumping the two boys out on the floor. Neither one awakened until they struck the floor. They were sleeping on a feather bed and therefore insulated.

A Narrow Escape.

William Richardson, a farmer living near St. Albans had a narrow escape from death last week while in the hay field. He was sharpening his scythe with a whetstone, when the scythe slipped and plunged into his side, striking the rib just above his heart and cutting a bad gash requiring several stitches to close. Had the blade struck him a quarter of an inch lower down, his eart would have been cut in twain.

Ex-Professor and Author Tells How Life May Be

Saved.

Mr. Neal, formerly a professor in well-known institutions of learning, author of scientific works, lecturer before colleges and universities on medical subjects, says it is a fatal error to suppose that stomach trouble is not dangerous. On the contrary, he claims that it may not only produce death within itself, but it is extremely liable to produce

heart complications. Doctors Van Valzah and Nesbit, the great stomach specialists, also say that stomach trouble may give the death stroke in certain forms of heart trouble. or it may be the cause of dreaded Angina Pectoris

It may fill your blood with poisonous uric acid and, in this way, produce a serious case of kidney trouble or rheumatism. Both spinal and cerebra neurasthenia may also be directly traced to a disordered condition of the digestive

apparatus. Mr. Neal, himself, was a stomach sufferer for 20 years, and, according to his own statement, he took enough pills, tablets, predigested foods and nauseous h juid concections des us that time, to fill a barrel, but his tomach trouble kept going eight a, getting worse

every day.

Finally he set to work on the thing himself and effected his own cure with a Biscuit, made from the paw-paw melon, pineapple juice, figs, oranges, celery and a few other good things for the nerves, stomach and bowels

National Bank President Kinner had stomach trouble so bad that he had to live on Malted Milk and, even that, caused him pain. He ate three of Neal's Biscuit, and went to eating his meals. Assistant Postmaster Estes (also a stomach sufferer) says the Biscuit made him feel like a two year old in a clover

Mr. Henry Gray of Attleboro, Mass. comes out in a sworn statement and says the Biscuit stopped his dyspeptic pains in one minute by the watch.

The formula of Neal's Biscuit, with the entire rights of manufacture, have been purchased by the American Health Products company. This company now proposes to give away \$5,000 worth of the Biscuit absolutely free, to prove their marvelous efficacy.

If you will send 4c. in stamps to pay the actual cost of postage at merchandise rates, the Company will send you a regular 25c. package of the Biscuit, without charge, provided you have never used them. This offer is absolutely genuine in every respect and we advise all readers of this paper who have stomach trouble, to send for a free package at once.
